PROFILE

Full stack software developer with a strong foundation in PHP/Laravel, React, NodeJS, and Angular, I am a versatile web developer ready to embark on new challenges. I possess comprehensive knowledge and hands-on experience in crafting dynamic and efficient web applications. My expertise extends to developing robust back-end solutions using PHP/Laravel and NodeJS, while my proficiency in front-end technologies such as React and Angular enables me to create captivating user interfaces and seamless user experiences. With a keen eye for detail and a passion for clean, maintainable code, I am committed to delivering high-quality solutions that exceed expectations.

PROGRAMMING SKILLS

- Proficient in fundamental programming concepts, including data structures, testing methodologies, object-oriented analysis, and web development principles.
- Skilled in HTML5, CSS3, JavaScript, and jQuery.
- Familiar with front-end frameworks such as React, Angular, and Express.js.
- Experienced in PHP using Laravel framework and Node.js.
- Proficient in utilizing IDE tools like Visual Studio Code and PHPStorm.
- Proficient in using Git, a version control system, for development purposes.
